

BACACIER®

ALTEMPO® & TEMPO® STRUCTURAL TRAYS FOR ROOF & WALL

Helps to **retain the insulation**
Protects the insulation
Cost-effective solution
Fast installation

ALTEMPO® **structural roof trays** and TEMPO® **liner trays** are metal boxes attached directly to the structure of your building. They help to **install the insulation** and provide a smooth appearance with no visible fixings inside the building. The ALTEMPO® range is available in widths of 400, 450 or 500mm.
